ePAQ® Pelvic Floor

Announcement of General Availability

Dear colleague,

Would you like...

- A valid, objective and sensitive measure of symptoms and quality of life for routine clinical use ^{1,2}
- To add value to your service & enhance communication with your patients (on-line or in clinic) ³
- A standardized, reliable, & sensitive, patient-based measure of progress & outcome ⁴
- To develop & support an integrated, multidisciplinary service ⁵
- To triage & initiate treatment in advance or instead of clinic attendance ⁶
- To efficiently & effectively reduce waiting times in line with 18-week targets ⁷

EPAQ Systems Ltd, a newly formed NHS spin-out technology company, is pleased to announce the general release of ePAQ-PF an electronic Personal Assessment Questionnaire to assist in the assessment and management of pelvic floor disorders in women. The system can be deployed either "in-house" or "hosted" via the NHS N3 network. Patients may also complete the questionnaire on-line (www.epaq-online.co.uk) as an alternative to or in addition to attending clinic.

ePAQ-PF is being used in an increasing number of NHS Hospitals including Birmingham, Leeds, Nottingham, Wolverhampton, Dorchester, Barnsley, Bradford, Chesterfield, Liverpool, Manchester & Sheffield.

For further information, please visit www.epaq.co.uk or call us on T: 0114 3072 349 (direct line).

Our thanks, in anticipation

EPAQ Systems Ltd
