HELP

Help

Every question or page in this questionnaire has a help page that can be found by simply pressing the HELP button at the bottom of the screen.

This provides information which may help to understand a particular question or the options provided to answer it.

Further information about help for symptoms or conditions is provided at the end of the questionnaire - this information is available automatically in the report and can be used by patients and carers.

Each page includes a **question** about how often a **symptom** occurs **and** a question about its **effect on** an individual's **quality of life**.

(consideration can address **personal** as well as clinical priorities)

Sexual matters

The following 25 questions assess how your sex life or your feelings may be affected by pelvic floor problems

Some of the questions may not be relevant, but others may be very important
If you do not want to answer a question or the question is not relevant to you, use the 'SKIP' button at the bottom of the page
